

May 22, 2018

Dear Champions MUD Resident,

Champions MUD is responsible for providing water and sewer services in your neighborhood. The District's Board of Directors has chosen Environmental Development Partners ("EDP") as the new operations company, replacing TNG Utility, to help with facility operations and maintenance, billing and collections, and customer service.

All calls for starting or stopping water service, billing questions, water quality issues, reporting a leak, and other questions pertaining to water and sewer service should be directed to EDP at:

EDP's 24hr Hotline: 832-467-1599

Customer service specialists can answer most questions or resolve most issues without requiring residents to take a trip to EDP's offices. Should you need to visit EDP's office, it is located near Highway 290 and Jones Road, at 17495 Village Green Drive.

The mailing address for your water bill payment has changed to the following:

P.O. Box 3264, Houston Texas 77253-3264

Your account number has also changed. Your new account number will be listed on your water bill that will be mailed the week of May 28th. You can also contact EDP for your new account number.

To make a payment by credit/debit card or e-check, please visit www.edpwater.com. Please use the new account number and mailing address to ensure proper delivery and posting of your payment.

It may take a bit longer for your first payment to clear your bank; please be patient. If your payment doesn't clear within a 14-day period after sending it in, please call EDP.

Thank You,

Champions MUD Board of Directors
